way Rd in Mesa, after 1pm and the party was in full swing. I looked over the crowd of people and the spotted the most unusual sun glasses (The Loners say the design means “Press 1 for English”). I moved in closer and discovered the sun glasses were worn by my friend Critter (ALR, Post 2). I should’ve guessed, because Critter is always wearing the most unique clothing or jewelry. She’ll wear virtually anything that will make someone giggle. We traded greetings and then I moved on to take pictures of the crowd.

Robert had long time friends Don Young and Johnny Haynes (on guitar) come up and play during a band break. Robert, Don, and Johnny played in an earlier band about 20 years ago called the “No Hobo Band”. Pretty soon some of Rock Land’s band members joined in and an impromptu jam session blossomed into a festive concert. It was awesome!

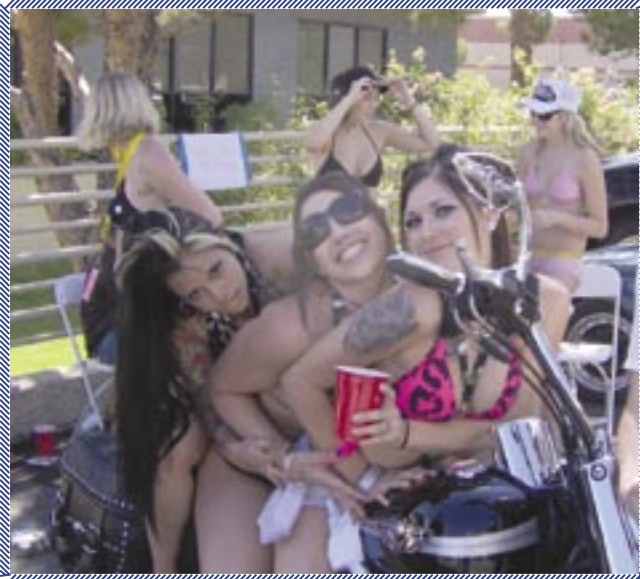

Robert said over 700 people stopped by. He said they went through 7 kegs of beer in 5 hours! Between the Raffles and the 50/50, they raised more than \$4200 for the Children’s Pediatric Brain Cancer Foundation. Robert would like to thank everyone who attended this year.

Saturday April 3... This year, like last year – was so much fun. Evil Twin Custom Cycle’s owner, Robert can really throw a party. This year’s annual Customer Appreciation Party featured pool tables, a bikini Bike Wash with models from Babes Cabaret, free food, drinks and FREE Beer, vendors, a snake petting zoo, oodles of fantastic raffle prizes, and great music by the band “Rock Land”.

Robert’s staff also came up the ingenious idea of keeping track of the raffles and raffle tickets. A lot of people don’t buy raffle tickets, because they aren’t going to stay all day. And some people stay to enjoy the free beer and lose track of their tickets. Robert’s staff came to the rescue. Over 300 participants signed in (your name, address, & phone number) and bought their tickets. There was a number next to your name

and Dynamo Deano wrote that number on the back of your hand (or wherever you wanted your number put) and then he wrote that number on the back of all of your raffle tickets. That way you didn’t have to keep track of all your pesky raffle tickets and could drink in peace. And if you left early, you got a call the next work day and let you know what else you’d won. That was a fabulous idea.
